

by request of the
vicinity, and the

the preacher is also a strong believer in the expediency and necessity of Slavery in that part of the country, besides favoring Buchanan for President."

We copied, a week or two since, a paragraph

from a South Carolina journal, in which the
New York *Day Book*, an ultra Pro-Slave

that the *Day Book* is as mercenary as t

his *Herald*, and might be bought up by the Abolitionists at a fair price. This snubbing was

altogether gratuitous, and was made in response to the pharisaical boast of the *Day Book*, its soundness, accompanied with an appeal to the South for support. We now have another instance of the Southern estimate of the Northern advocates of Slavery. The *Edgefield Advertiser* says:

"The New York *Day Book* is out in distinct and emphatic denunciation of the court jury who were instrumental in acquitting Herbert. This is little short of siding with

MOORE HONORS TO BROOKS.—The *New York* (S. C.) *Mirror* contains a letter from Washington, giving full particulars of a dinner party

this city in honor of the birthday of the immortal Brooks! Judge Butler, General LaSalle, Oregon, General Quitman, Colonel Davis, (Secretary of War), Judge Douglas, Mr. Edmunds, Mr. Boscock, and Mr. Clingman, were present. Quitman presented Brooks a cane, in behalf of the citizens of Holmes county, Mississippi, and made a highly complimentary speech, emphasizing the heroic achievement of attending to his duties in the face of death.

What high-minded Southerner will not blush for shame at the mere mention of the word Chivalry!

LITERARY FAME.—Arrangements have been made with Mrs. Harriet Beecher Stowe, for separate editions in England, France, and Germany, of her new novel, now going through the press of Messrs. Phillips, Sampson, & Co., New York, in this city, so that the book will have a simultaneous issue in the four great publishing cities.

This establishment is now more than ever worthy of the public attention. Mr. Whitehurst has made an important discovery in the art of picture-making. We allude to his photographs in oil colors on "enamelled mill-board, or card-board." The nature of the discovery is thus

"By this achievement, likenesses are taken either from life or from a small daguerotype and transferred, by the action of light, to a chemical preparation, to the 'enameled milk board,' or canvases, in oil colors, life size, magnifying or diminishing, to suit the desired purpose. This 'board' is prepared in colors, so as to present perfect adaptableness to photographic purposes, with surface as smooth and glossy as polished mahogany, and impervious to the changes of temperature, climate, and even to the action of water. The photograph, when finished upon the 'enameled milk board,' presents a soft and brilliant effect, while the original, prominent and

graph outlines impart to the general appearance of the portrait an illusive effect of actual life."

Any number of copies can be procured from the result of one sitting, thereby rendering them much cheaper for illustrated works than engravings.

Ambrotypes, a new discovery for making pictures on plate glass, are also extensively used by Mr. Whitehurst.

Mr. Whitehurst has established Daguerre's Galleries in a score or so of the principal cities of the United States and the

erty. He has been
him-
of
proof
both
of it.

ALBANY, N. Y., August 20, 1856.

To the Editor of the National Era:

The most careful political calculatorists are unable to figure Fremont's majority in State below 30,000; and this estimate of 10,000 against him in New York city, 2,000 Albany, and 2,000 in Rensselaer, where sanguine friends are unwilling to allow majority against him. According to pre-calculations, based on the most reliable information received here at the central point, in every county in the State, Fremont's ma-

cannary much from 50,000. In these states, Fillmore is considered as the champion of Fremont. Buchanan seems to be admitted to be out of the count. Nevertheless, the elections may have the effect to change the relative positions of the candidates. Buchanan for the day of election. But it is impossible for Buchanan to rise to Fillmore's pre-eminence, unless there should be a union of Buchanan and Fillmore forces; in which case the losses and gains would be about equal.

It is a striking fact, that the most active working men for Fremont in this State recently "Democrats;" and the three or four counties which heretofore have been engaged previous to elections, in a strife as to who should give the largest majority for Jack-

effort was made to secure the support of the Fremont majority. Oneida, St. Lawrence, Jefferson, and Herkimer, are taking of 6,000, and even 8,000 Fremont majority of their respective counties, and of course, if such a majority is secured, the Fremont campaign is sure. I may remark that nobody expects any Union League candidate to run to the extent of Fremont.

Everywhere the greatest reliance is placed upon the large and judicious circulation of monuments, newspapers, and speeches, as a means of success. Where this has been neglected falling off in Fremont's vote will mark the negligence of those who should have done so.

REPUBLICANISM IN VIRGINIA.

WHEELING, VA., AUGUST 11, 1881

To the Editor of the National Era:

Please announce, through the columns of your paper, that a respectable number of publicans of this city met on last Saturday evening, and adopted a Constitution organizing an association, to be called the Republics of Obio County, Virginia; the object being to co-operate with Republicans throughout the nation in putting a stop to the extension of Slavery, and in supporting Fremont's Administration.

The platform of the Philadelphia Anti-Slavery Convention was read, and endorsed by a unanimous vote.

The following persons were elected as permanent officers of the Association: Mr. J. Norton, President; Messrs. Vincent B.

Lot. Dr. Joy, and A. C. Partridge, Vice Presidents; Dr. J. Thoburn, Secretary; and James Wilson, Treasurer.

Messrs. S. H. Woodward, J. Thoburn, Fischer, E. M. Norton, and I. M. Pumphrey were appointed a committee on correspondence to take immediate steps towards the formation of a Fremont and Dayton electoral ticket.

Republicans throughout the State will correspond with the above committee. We are earnest, and intend to have an electoral ticket. In this and the adjoining counties we will poll a respectable vote. If the issue be fairly made, a large majority here would be opposed to the extension of Slavery.

the soil is good, the water excellent, the spring abundant, and the climate is just what you want. The best site in the county for a pork house, flour mill, saw mill, stock raising, and a large lumber yard, farm tools, furniture, and library, are of good looking a superior place.

— One half in hand, and one per cent discount either half; or twelve months time, on good security. For a full description of the place, being without cost, be lucrative. So a planning machine, for special terms, as to time, fee, apply on the premises.

I have also a FARM FOR SALE, (500 or 240 acres) similar, at \$15 an acre; within two miles of the best of the above; schools, railroad, stores, mills, State University, and other advantages. The best of the above, and the best of the above, by a moral, industrious, and native Presbyterian minister, situated on a good road, high, healthy, and fertile, and with plenty of water, and a good building, and willing to keep up fences, this farm is well adapted for raising stock, and for growing and delivering on sale; and the grain fields, too, if reserving tenant's title.
